ELEVATING LIFT SAFETY STANDARDS

Lifts are indispensable amenities that bring great convenience and efficiency to residents. To ensure compliance with codes and standards, lifts which have been in operation for less than 18 years from the Lift Enhancement Programme's (LEP) commencement date will soon be upgraded with improved safety features.

Under the LEP funded by the Housing Development Board, 80 lifts in Holland-Bukit Panjang Town will be installed with measures to enhance

safety performance while 864 lifts will also be progressively equipped with new safety components over the next 10 years.

These steps taken to modernise lifts will take about two weeks each to complete, with a lift surveillance system also on schedule to be implemented. Residents can look forward to the upgraded lifts with heightened safety, providing greater assurance for all.

Modern safety features will include

Slack-stop safety device

Stops lift from moving when governor rope starts to slack

Safety light curtains

Provides sensory input that holds lift doors fully open while passengers enter and exit to reduce possibility of contact and injury

Overspeed protection with braking function

Monitors lift car's speed, detects uncontrolled movement and slows lift car to a safe stop

Interlocking switch for lift door panels

Ensures lift stops moving immediately and remain in position whenever lift door panels are open

Door movement sensor

Detects and stops lift car from moving when doors are not properly closed

Safety barrier

A vertical panel will extend downwards from the lift car entrance to prevent passengers from falling into the lift shaft if doors are opened above the levelling position

Features already in place

Emergency communication bell

Allows lift passengers to alert the relevant personnel who can deploy the emergency response team

Battery-powered automatic rescue device

Brings affected lift to the nearest landing and opens doors for residents to make a safe exit in the event of power failure

COMPLETED WORKS

If you are a fitness enthusiast, you may have noticed the upgraded exercise equipment located at fitness corners all around the Town. Together with linkways, link bridge and barrier-free access (BFA) features like the ramp that were constructed over the past two years from 2017 to 2018, these amenities are all part of the Town Council's continual improvement work projects to enhance the quality of your living environment.

Promoting healthy living and encouraging bonding, as well as increasing mobility and improving safety, be sure to utilise these amenities with family and friends. To recap, here are the locations where you can find them:

Linkways from Block 4 to 13 Toh Yi Drive

Linkways from Block 536 to 538 Jelapang Road

New Access at Block 309A Car Park

New BFA to Car Park at Block 318A

BUKIT TIMAH Elderly fitness corner between Block 202 and 205, Clementi Avenue 6

BUKIT PANJANG LUNAR NEW YEAR LIGHT-UP CEREMONY

For the last 12 years, Zhenghua Merchants' Association has been spearheading the annual Light-Up Ceremony, turning Bukit Panjang into a "mini Orchard Road" with its elaborate street light decorations during the month of Chinese New Year.

More than 1,000 residents showed up at this year's Light-Up Ceremony held in January 2019 to witness the launch and enjoy an evening of Getai along with other stage performances. The ceremony was officiated by guest-of-honour Dr Teo Ho Pin, who with the press of a button and a pop of confetti, brought to life cascading light displays that lined Bukit Panjang Road.

According to Zhenghua Merchants' Association Chairman Mr Tan Jue Tong, organising this yearly tradition is the association's way of giving back to the community. Other than raising funds independently, they also collaborate with Holland-Bukit Panjang Town Council and work with different Residents' Committee (RC) to put forward bigger and better displays each year.

Residents say these lights add to the festive atmosphere, and have remarked to Mr Tan that the decorations are even comparable to the ones seen at Chinatown. Knowing that these installations are able to bring happiness to the residents, Mr Tan shared that he and his members will continue to work hard and bring even more beauty into the GRC through this ceremony. We cannot wait to see what the association will bring forth next year!

ZHENGHUA WORKERS APPRECIATION

Spreading the festive joy on 2 February 2019, Mr Liang Eng Hwa shared Chinese New Year greetings and showed appreciation for 35 workers who have toiled tirelessly to upkeep the Town's cleanliness. Through a luncheon and distribution of goodie bags, Holland-Bukit Panjang thanked them for their hard work and dedication.

SINGAPORE WORLD WATER DAY

PUB

Launched on 2 March 2019, the Singapore World Water Day is an annual celebration with community events and roadshows lined up islandwide to heighten awareness of conserving water in the month of March. Students will also get to learn more about water saving habits through water rationing exercises conducted in schools.

Saving water is a collective effort and even the smallest of efforts go a long way. Everyone can play their part by practising these **W-A-T-E-R** saving tips at home!

-  **WASH** clothes on full load
-  **ALWAYS** use half-flush when possible
-  **TURN** off shower when soaping
-  **ENSURE** tap is off when brushing teeth
-  **RINSE** vegetables in container

First five completed entries will each receive an exclusive Singapore World Water Day NETS FlashPay card (no stored value) provided by PUB, Singapore's National Water Agency
